The News.

Two steamships have arrived from Europe, since our last, the *Kangaroo*, at New York, and the *Canada*, at Halifax. They bring some interesting intelligence. The missing U. S. steamship *Ariel*, of the Vanderbilt line, is safe. She broke a shaft, when a few days out, and had to put back. Another attempt had been made upon the life of Louis Napoleon, but it failed. The launching of the mammouth *Leviathan*, is nearly completed. She waits but the high tides towards the end of January, to float her off the ways. There is nothing later from India. The money market is easier; the Bank of England having reduced its rate of interest to 5 per cent; and Breadstuffs were rather lower, and with a declining tendency. Business was reviving, both in England and on the Continent.

The California steamer of the 8th inst., arrived at New York, Wednesday, bringing upwards of *a million and a half* in gold. A very destructive fire had occurred at Downieville, involving a loss of nearly $500,000. Mining prospects continue good.

Congress is still in travail with the Kansas, Pacific Rail Road and Utah questions. No visible progress has yet been made towards their settlement.

Our Legislature is again at work, but thus far the business transacted has been mainly of a local nature. The bill *to extend the time* for paying taxes in this city, has passed both Houses.

The New York Produce Market was dull and heavy, yesterday. Our home market sympathized in this feeling and transactions were light.

Navigation on Lake Michigan is as open and unobstructed, as in midsummer, and vessels continue to arrive and depart almost daily.

We have no improvement to note in money matters here, though capital is abundant in New York and lying idle, for lack of employment.—Confidence is the only key that can unlock these treasures.

The Legislature.

The telegraph brought no report, Wednesday, of the doings of the Legislature, which was of less consequence as the proceedings were not important. In the Senate, the following resolutions, reported by Mr. MARTIN, were adopted without dissent, and Messrs. MARTIN, MAXON and JOINER, appointed a committee under them:

Resolved, That a select committee of three be appointed, with instructions to ascertain the greatest indebtedness of the State on account of loans, warrants, appropriations remaining unpaid, and liabilities to be incurred under existing laws; and that said committee inquire into the expediency of so amending the Constitution as to provide for funding such indebtedness, and to prohibit the Legislature, or any officer, or Department of the State Government, for authorizing or contracting any debt or liability on account of the State, except such as may be expressly authorized by the Constitution.

Resolved, That said committee further ascertain, as far as practicable, the amount of bonds and other outstanding evidences of debt, issued by the several counties, towns, cities, and other municipal divisions and corporations within the State, and inquire into the expediency of limiting by a constitutional prohibition, the amount of indebtedness to be incurred by them respectively, and also to limit the powers of taxation to such purposes only as shall be necessary to preserve the public credit, and defray the ordinary current expenses of the Government.

Resolutions, looking to a reduction of the Postage and Printing expenses, were introduced by Senators WORTHINGTON and CHASE, and adopted. Very material savings can be effected in both items. The only bill of interest passed was the Assembly bill "to extend the time for the payment of taxes in the City of Milwaukee."

In the Assembly, a resolution was passed to appoint a Committee to inquire whether the Post Master at Madison had overcharged mail matters of the Legislature. Several bills of local interest were introduced, and the rest of the morning spent in discussing Mr. Hall's resolution that no member of either of the last two Legislatures should act on the Land Grant Investigating Committee. After long debate, the resolution was indefinitely postponed, Yeas 49, Nays 40.

THE WEATHER.—Several captains of vessels, recently arrived at this port, state that the Gulf-stream was this year forty or fifty miles nearer the American coast than hitherto. The fact is mentioned as accounting for the extraordinary mildness of the winter weather thus far. But we should like to know what has caused this singular variation in the course of the Gulf-Stream. —*N. Y. Herald.*

A different explanation of our unusually pleasant winter, prevails at the West. The popular version is, that, according to the doctrine of compensation, the times being outrageously "hard," the weather is, as it ought to be, correspondingly "soft." The advantage of this hypothesis is, that it applies as well to the other side of the Atlantic, (where the weather has been unprecedentedly mild) as to this; while the "Gulf Stream" theory is only adapted to the American side of the question.

Supreme Court.

Wednesday, Jan. 27th, 1858.

SIXTENTH DAY.

Lyndsay Ward, appellant, vs. Ralph Clark, appellee. Argument resumed and completed.

Henry Thompson, respondent, vs. John Rycraft et. al. app. Motion by Stoever for appellant, to discontinue. Motion argued and submitted.

Horatio G. Talbot, app. vs. Matthias Stone et. al. Res. Argument commenced by B. Paine for appellant, and Starkweather & Cameron for respondents.—*Madisoa Journal.*

MILITARY CONVENTION.—A Military Convention of the Commissioned officers of the State will be held at this place, on Tuesday next, the 2d prox.

We understand that the Milwaukee Light Guards, and perhaps some other military Companies will be present on the occasion.—*Madison Journal.*

The Convention is called at 12 o'clock on Wednesday, February 3d. Will our friends of the *Journal* please make a note of it?

THE LAND GRANT INVESTIGATION.—The *New York Times* of yesterday, makes two palpable mis-statements in its article on the Land Grant Investigation. One is, that the Legislature which disposed of the Grant, was a Republican one. Not so; it was Republican in one branch, and Democratic in the other. The second is, that Speaker Lovell has placed only one Democrat to four Republicans on the Investigating Committee. Wrong again. The Committee consists of three Republicans to two Democrats.

Later from Utah.

A gentleman from Salt Lake City, via California, has communicated some interesting facts to the *N. Y. Times* on the state of affairs in Utah, as late as the 10th of December, from which it appears that the Mormons were preparing for a system of guerilla warfare against the U. S. troops. This informant left California on the 15th of November last, intending to reach the Atlantic through that Territory, but finally retraced his steps after arriving at Salt Lake.—On his way to Utah, he stopped at the Mormon settlement at San Bernardino, whence the Mormons were emigrating to the chief city of the Saints. They disposed of their property at such prices as the Gentiles were willing to pay them —frequently at one tenth its real value—and joyfully obeyed the command of their prophet.—In passing on to Salt Lake the gentleman came up with several parties of the emigrating Mormons, who were singing their "Songs of Zion" with joyful hearts. All that was learned from them touching their emigration was simply that "the Prophet" had called them home. They were well supplied with arms and ammunition for their protection on the journey, and, according to report, had abundance of both for the "defence of Zion."

The Indians in the vicinity of the Mormon settlement were apparently on good terms with the Saints, and well clothed and armed. At Salt Lake City the Mormons appeared to be well posted as to the movements of the U. S. troops, and it was generally believed that they had friends in the camp who communicated with them. Echo Canon, a difficult pass near the city, is held by a force of Mormon rangers, and great care has been taken to fortify it in anticipation of an assault.

From the tone of conversation and the preaching of the Mormon elders, it was evident that the Saints intended to adopt the guerilla system, and that they had great faith in their ultimate triumph. There were strong exhortations to trust in the Lord, but no indisposition to keep their powder dry. Nothing of importance had occurred very recently, so far as the Mormons were concerned; but the couriers were daily entering the city, with reports from the "Eastern Expedition," which caused considerable excitement every day.

The reported sufferings among the United States troops was cause for congratulation among the Saints, as indicating an exercise of "the Almighty's power" on which they largely rely as a means of assisting the Mormon rifles in the total destruction of the Gentile troops now at the foot of the mountains, and these who may join them in the Spring.

The Mormons see no possibility of the troops ever getting in though the valleys should be besieged on every side. The narrow defiles must be passed, in which bodies of men awfully harrassed by guerilla parties, and for that business, they seemed readily and well skilled. They have strongly fortified Echo Canon—as the troops are now in that direction; but every other entrance will be made a place of defence before the Summer. Every able-bodied man will be under arms as soon as they have put in the Spring crops, and they say that in the time of harvest—if the men cannot return—the women and the rising generation, together with "the fathers of Israel," will tend their aid. Many of the women are not over-delicate in frame. Many of them, natives of Europe, have been accustomed to the work of a field and factory; so that, under the actual supervision of Brigham, there is little doubt that much of the harvest, if not all, will be secured.

An open fight is not counted upon, but every other means of crippling the army will be resorted to, if once it becomes a matter of life and death. There is, however, a hope prevailing among the Mormons that the Administration will yet call off the army. The majority of the men are for war. In fact, their leaders had great difficulty to keep some down who were restive and panting for a fight. Brigham told them that "he would ox cruse faith that the troops should be kept away, and he wished all to do the same, instead of wishing them to advance." His orders were imperative not to shed blood, so that if another course should be adopted by the Administration toward them, the feeling of revenge should not hinder the establishment of peace. While our informant remained in this city, he heard of no dissensions.

The Times informant and party, leaving Salt Lake on the 10th Dec., crossed the big mountain and came upon a Mormon camp of rangers at the mouth Echo-Canon, the second day out. They had a permit to go through the canon, and concluded that if the Mormons continue the labors they have commenced there, it will be a fine "path to glory" in the Spring. The snow was deep, but by the travels of scouts and couriers back and forward, the road was passable. There were great numbers of troops in the canon, passing and repassing. The Mormons soldiers were becoming accustomed to camp-life, and looked well and contented. The canon, with its towering mountains on every side, looked frightful.

Later from California.

NEW YORK, Jan. 27.

The Moses Taylor from Aspinwall with the California mails of January 8th, arrived this evening with specie to the amount of $1,555,000.

The State Legislature met on the 4th. Gov. Weller will probably recommend the taxation of mining claims, and the question will probably occupy more than any other, and probably will lead to a serious quarrel in the Democratic party.

The greater part of the town of Downieville was burned down on the 1st inst. The total loss was estimated at $489,000.

There was an anti-Mormon meeting in Los Angeles on the 9th inst, and they addressed a memorial to Gen. Clark, in command of the Pacific Division, praying him to send 600 soldiers down to their country for their protection.

The official vote of Oregon was 5,000 against slavery, 4,000 in favor of the Constitution; 7,600 against the admission of free negroes.

Gaines the former Governor of Oregon, is dead.

The Legislature is now in session.

The State election will take place in June.

The U. S. steamer Fulton left Aspinwall on the 17th for San Juan, to convey there Gen. Lamar, American Minister to Central America.

The Moses Taylor passed the Spanish fleet off Havana.

An American whaling captain was pursued and caught within a league of the coast of the Sandwich Islands, and compelled to return and pay his debts. The American Commissioner sanctions the seizure.

A slight shock of an earthquake was felt in San Francisco on the 24th ult.

Central American news unimportant.

The British mail steamship Valdavia was wrecked on the 11th of Dec. in a fog, in Bichuquen. All on board were saved.

Dates from Bollyia to the 30th December are received. It is rumored that Belzu, ex President, will soon make his appearance on the frontier to oppose the government.

Affairs at Peru are unchanged. Some extensive failures are reported: two for half a million dollars each. Mr. Loerver was arrested in Lima, charged with having organized a filibustering expedition in the United States to aid the revolutionists.

Matters in New York.

NEW YORK, Jan. 27.

Judge Bosworth, of the Superior Court, was taken suddenly ill upon the bench to-day, and was removed to his residence. It is supposed he had an attack of pleurisy.

Lewis Beardsley, of Madison, Wisconsin, and a nephew of Judge Beardsley, of this State, blew out his brains with a pistol at a shooting gallery on Broadway, last night, while under a temporary aberration of mind.

Hon. J. H. Hobart Hawes, formerly M. C. from this city, died at Troy this morning, after a short illness.

Lynch Law in Indiana.

GOSHEN, Ind, Jan. 27.

Gregor McLane alias Gregor McDougall, from Canada West, the accomplice of the notorious Townsend, and who has confessed to over thirty highway robberies and thefts, was taken yesterday, by about five hundred of the Vigilance Committee called "Regulators" and hanged on Diamond Lake hill, four miles southeast of Ligoner, Ind.

Everything passed off quietly. So far, twenty two thieves and counterfeiters have been arrested and the Regulators are after more.

SPRING PLOWING COMMENCED.—Mr. H. G Dodge, of the town of Westport, a few miles from this city, commenced his spring plowing this morning at sunrise. The ground is in excellent condition in that vicinity—all the frost being out of it.

This will do pretty well for the 27th day of January. Many years may elapse before the like can be recorded.—*Madison Argus.*

PARDONED.—Gov. Randall has pardoned, from the State Prison, James Ketchingman, convicted of adultery in Racine County, at the April term of the Circuit Court for 1857. The petition for his pardon was signed by the Circuit Judge, the District Attorney of Racine county, ten of the jurors who tried the case, the Sheriff and some 400 citizens of Racine county, and some 70 citizens of Kenosha County.—*Madison Journal.*

CITY MATTERS.

MITCHELL'S BLOCK.—Among the many elegant brick buildings that have been erected in our city during the past year, we are inclined to think none will surpass, in convenience, beauty, and stability, the fine block just completed on the corner of East Water and Michigan streets. As a matter of course, when we make this comparison, we do not include the private dwellings in our city, many of which are indeed perfect palaces. We speak of buildings in the business parts of the city. This fine building is a private enterprise, and is owned by our respected fellow citizen, ALEXANDER MITCHELL, Esq., who is now on a visit to his native country, Scotland. We took a stroll through the different apartments of the building yesterday, and are indebted to the courtesy of our friend, J. DELLENBURG, under whose architectural superintendence it was erected, for particulars of its construction.

Location, size, and appearance of the building.—The location of this block is an admirable one. It is in the very heart of the city, the centre of its business interests. The building has a front of 120 feet on Michigan Street, and is 40 feet deep. It is five stories high, including the basement, and each story is lofty and well arranged. It is erected after the Italian style of architecture, and is built, with the exception of the basement, of those beautiful cream colored brick, for which our city has become so noted, and from which it has derived its cognomen of "the city of brick." The basement is built of a very handsome and durable stone from Illinois, which is commonly known as "Chicago marble." The basement story is surrounded by a very neat iron railing, about three feet from the walls and about two feet high—a new idea in this country—which sets it off to good advantage. The general appearance of this block is more of solidity than show, but although directly opposite the elegant marble building of the State Bank, it loses nothing by comparison with it. Indeed it would be difficult to find any materials from which a handsomer building can be constructed than the now far famed Milwaukee brick. The exterior of the building has been finished to correspond with "the Albany," and thus makes the block on Michigan street complete and uniform.

The main entrance to the upper part of the building is on Michigan street, as are also the entrances to the banking departments.

The basement and first story.—The basement and first stories are to be devoted exclusively to banking purposes, and each is divided into three banking offices, of ample dimensions and conveniently arranged. That on the East Water street corner, is being elegantly fitted up for the Wisconsin Marine and Fire Insurance Company Bank. The adjoining, or middle office is also being neatly fitted up for MESSRS. HATHAWAY & BELDEN, bankers and brokers. That on the corner, adjoining the Albany, is of the same size, and is being furnished nearly in the same style as the office on the East Water street corner. The apartments in the basement are of the same size as those in the first story, except that they are not so lofty. They are, however, admirably designed for banking business. Each banking apartment is provided with a money vault, with double iron doors, and also with an extra room for the President or Cashier's office.

The upper stories.—The second and third stories are each divided into nine very handsome offices, averaging 18X20 feet, provided with all the modern conveniences, and all arranged so as to be excellently lighted. Most of these will no doubt be occupied by Lawyers, Insurance Companies, and Land Agents. Several law firms have already taken up their quarters in the second story.

The fourth story is designed particularly for young men's lodging apartments, club rooms &c. There are eight of these apartments, each provided with a neat little bed room, and closet for wood. All parts of the building will be provided with gas, and supplied with water from a large cistern upon the roof.

Workmanship and cost of the building.—Every branch of workmanship is well done and deserves special notice. The masonry and stone work was done by Mr. Allen, who was also the contractor for the building of the Albany.—All his work speaks for itself. The carpenter work was done by Messrs. Martin & Rogee of the 5th Ward, the builders of the Newhall House. Messrs. Crossfield and Armstrong are doing the painting. The vaults and vault doors are the work of Messrs. Schumacher & Johnson, each of which is provided with one of their celebrated combination locks. The iron railing, and other iron work is well done, the credit of which is due to Messrs. Hornback & Wagner. The roofing is tin, and was manufactured, and put on by Messrs. Murray & Prior.

I. Dillenburg was the architect and superintendent of the whole. The entire cost of the building is thirty-five thousand dollars.

TOM PAINE FESTIVAL.—We understand that the friends and admirers of Thomas Paine will celebrate the 121st anniversary of his birth day, at Market Hall to-night. A good orchestra and a German Glee Club will be in attendance, speeches, both in English and in German, will be delivered, and at the Supper, which will be served up in the best style, by a master of the culinary art, regular toasts, &c., appropriate to the occasion, will be delivered. The festivities of the evening will be concluded with a social dance.

ARRIVAL.—THE JOSEPHINE LAWRENCE BACK AGAIN.—The schooner *Josephine Lawrence*, which took a cargo of merchandise out to Manistee last week, returned to this port yesterday, with a cargo of about 60,000 feet of lumber, and 50,000 lath, for J. L. McVicker & Co. Captain Sea'eland reports very favorably of his voyage, says he encountered no difficulty whatever, either in going out or returning, and he is now ready to make the trip again if he can get a cargo to take out there.

THE LIGHT GUARD CADETS.—This Company of youthful citizen soldiers is making fine progress in discipline and drill. They have already 50 names on their roll, and at their Weekly Drill, on Wednesday evening, had nearly forty in the ranks. They are about to procure a very neat, and cheap uniform and for this purpose are soliciting a little material aid from our citizens. They promise to make a spirited, orderly and well-drilled Company, and will, we hope, meet with the encouragement they ask.

MASQUERADE BALL.—The first Masquerade Ball of the season comes off, next Tuesday evening, February 4th, under the auspices of the "Milwaukee Ladies Society," and for the benefit of the German and English Academy. It is the third one of the series which this Society has given, for the same object, and is expected to surpass all previous entertainments of the kind. A great variety of new costumes, new fancy dances, new *tableaux*, &c., will be introduced on this occasion.

☞ See GEORGE W. ELLIOTT'S advertisement in another column, headed "Experienced Agents Wanted."

POLICE COURT.—Samuel Colton was examined before the Police Justice, yesterday, on a charge of robbing a grocery on Palmer's Addition, kept by a colored man named Moseby, and held to bail in the sum of $500 for his appearance before the Circuit Court. This was the young man who swam the river to escape from the officers. The examination left a very serious doubt on the minds of all present whether he was guilty of stealing anything but whiskey. The grocery keeper asserts that there was between $2,50 and $3,00 taken from his money drawer; but there is no evidence to show that Colton took it, but there is a possibility that it was taken by others, who were in the grocery drinking before the complainant left the house. When Moseby returned, after being down street a short time, he found Colton in his store drinking whiskey; and from the fact that he was letting the liquid run over the floor from a barrel, it is more than possible that he was intoxicated.

There is a doubt about his having stolen the money, and that doubt he is entitled to, but he is still held for trial for entering the place and drinking some vile whiskey, and whether that constitutes a burglary or not, is a question to be decided by the Circuit Court.

James Fallows was fined $3 and costs for being intoxicated and disorderly.

John Ottenburg and G. Seimour, were fined $5 each for fast driving upon the street.

John Heys was sent up for committing an assault and battery upon his wife.

Susan Bronwod was fined $3 for being drunk.

THE CONCERT TO NIGHT.—MRS. MOZART, assisted by several excellent Artists, gives her promised Concert at Albany Hall *this* evening. She is heralded by an enviable reputation and offers a very attractive entertainment. We do not doubt that all who attend will heartily enjoy the Concert, and we hope that MRS. MOZART will be greeted, on her first appearance in our city, by a crowded house.

FIREMEN'S PROCESSION.—The Members of Germania Engine Co. No. 7, the new Company located in the Eighth Ward, made the tour of the city, yesterday, preceded by a brass band, and accompanied by numbers of their brother firemen, on the occasion of taking their engine, which has just been repaired and repainted, to their house on Elizabeth Street.

THE ATLANTIC MONTHLY.—We have received the February number of this excellent magazine from Henry Kempshall, 175 East Water street.—It contains twenty very readable articles, among which are two capital poems. The Atlantic Monthly has already become one of the most popular magazines in the land, and the publishers seem determined to make it worthy of the most extensive patronage it can receive.

THE RED PETTICOAT.—This new and somewhat startling fashion has made its appearance in the streets of our city. It was gracefully displayed by the wearer and created quite a sensation. No doubt it is destined speedily to become the rage, here as elsewhere.

The Hog Market.

From the Cincinnati *Commercial* of the 26th:

HOGS.—The market for Hogs and their products opened quite excitedly again this morning, and a further advance was established for most articles, but as the day passed on, the offerings became more numerous, and there were considerable sales, so that the excitement had reached its culminating point, buyers being quite timid at the close, and generally disposed to hold off. The receipts of hogs since Saturday have been about 4,000 head. The sales were—

40 averaging 240 lbs at	$5,15
40 " 240 lbs at	5,00
200 " 230 lbs at	5,60
200 " 220 lbs at	5,50

PROVISIONS.—The market was still excited this morning, and prices were generally higher, except for Mess Pork, which was in less demand. The sales were, in Bulk Meats, 81 bbls Sides at 7s, packed; 56,000 lbs do. (clear) at 6¾c packed; and 9,000 pieces Shoulders at 5¾ loose. In Bacon, 30 bbls Sides at 7¾c; 40 do do at 8c, and 20 do Shoulders at 6¾c, all packed. In Lard, 95 bbls at 8¾c, and 150 tierces bead at 8c. In Mess Pork, 200 bbls at $12,50. ASSEMBLY.—10 A. M.—Petitions and Memorials.—Of citizens of Columbia county for investigation into corruption of La Crosse R. R., also asking relief from action of said road; for extending time of paying taxes in various Co's.

Bills and Accounts.—To extend time for paying taxes in several counties; to amend acts incorporating North Western Insurance Co., passed under suspension of rules; to incorporate Firemen's Ins. Co.

Resolutions Passed.—That Committee on State lands report on prohibiting further sales except to actual settlers; inquiring whether too many persons are not employed about the capitol, passed; Senate bill amending an act authorizing extension of time for collection of taxes in certain cases, joint resolution that no document be printed except by authority of both houses; Senate bill for an act concerning evidences and witnesses relating to investigating land grant, was called up, and a motion to print, and make special order for to-morrow, caused considerable debate, and was finally adopted.

Adjourned.

SENATE.—10 A. M.—Petitions.—For removal of County of Juneau Co.

Resolutions.—Repealing resolution in relation to cutting timber on public lands; to inquire into the condition of the State University.

Bills Introduced.—To enable State Superintendent of Public Instruction to complete the distribution of Webster's unabridged dictionaries; to incorporate Oconto lumbering Company; to repeal the act of '57 fixing salaries of Circuit Judges.

Bills passed.—A bill concerning evidence and witnesses; relating to investigation of the R. R. grant.

Adjourned till 4 P. M.

XXXVIth Congress—First Session.

WASHINGTON, Jan. 27.

HOUSE.—On motion of Mr. Zollicoffer, a resolution was adopted calling on the President for information in relation to the Utah Expedition, and the attitude of Brigham Young towards the authorities.

Mr. Harris of Illinois, made a partial report from the Committee on Elections, declaring it inexpedient to allow Mr. Campbell, as he requested, further time to take supplementary testimony affecting his seat, which is contested by by Mr. Vallandingham.

Mr. Gillmore made a minority report.

Mr. Stevens, from the same committee, offered a resolution, which was adopted, admitting Mr. Vallandingham to the floor of the House, and allowing him to speak on the merits of the case.

Mr. Harris said he would shortly call up the subject.

The House then adjourned.

SENATE.—Mr. Pugh presented the joint resolutions of the Ohio Legislature.

Mr. Wade declared that they were disreputable in their character.

After the impatient demand of several Senators they were read.

After some further remarks by Messrs. Wade and Pugh, the resolutions were tabled and ordered to be printed.

Mr. Davis introduced a bill as a substitute for the Pacific Railroad bill, embodying the views of the minority of the Select Committee on the subject.

The Senate then proceeded to the consideration of the Army bill.

Mr. Gwin submitted a substitute, providing for five new regiments in accordance with the recommendation of the Secretary of War.

The subject was debated at length—much opposition being shown to the bill.

Without taking the question, the Senate adjourned.

WASHINGTON, Jan. 28.

HOUSE.—The House went into Committee on the Printing Deficiency bill.

Mr. Shaw, of Ill., commenced a speech on the Kansas question, when Mr. Burnett rose to a point of order, saying that the rule requires members to confine themselves to the subject under consideration. The chairman remarked that if this question was now presented for the first time, he would decide the point when taken, but a different usage has prevailed.

After some debate, Mr. Burnett withdrew his objection, and Mr. Shaw proceeded.

Arrival of the Steamship Canada.

HALIFAX, Jan. 28.

The R. M. steamship Canada, from Liverpool on the 16th, has arrived. The steamship Ariel had put back to Cork, on the 15th, with her main shaft broken.

LIVERPOOL MARKET.—Breadstuffs—the market was dull with a declining tendency.

Provisions—were quiet.

LONDON MARKET.—Cotton—declined 1-4 on fair and middling qualities.

Breadstuffs—dull with a declining tendency.

Provisions—quiet.

The Bank of England had reduced the rate of discount to 5 per cent.

Consols for money 94¼a94¾.

The news by this arrival is three days later dates, and important.

The Vanderbilt steamship Ariel, Capt. Ludlow, which left Southampton for New York, on the 31st ult., broke her main shaft when some distance out, and put back to Cork under sail, which port she reached on the 16th. She reports having experienced very heavy weather.

An attempt had been made on the life of the Emperor Napoleon, but it failed, though a projectile pierced his hat.

The Leviathan had been pushed nearly to the end of the launching ways. Little else would be done till the high tides of January float her.

The London money market was easier. The Bank of England had reduced its rate of discount to 5 per cent.

Messrs. C. F. Gray & Sons, of London, in the Canadian trade, have suspended.

The American barque Adriatic, which was confiscated by the Court of six, for coming in collision with the steamship Seourdas, had escaped from Marseilles.

A new Spanish ministry had been organized.

The news from India, one week later, had been received, but there was nothing farther from Cawnpore, owing to the interception of mails between Bombay and Calcutta.

Washington Matters.

WASHINGTON, Jan. 28.

The minority of the Senate committee on the Pacific Railroad, have made a report in favor of constructing the road within 10 years. Alternate sections of land for the space of miles to be granted, and ten million dollars to be appropriated and paid as the work progressed.

The war department has received later despatches from the Utah expedition, but the character of the news has not yet transpired.

It is reported that Gen. Scott will leave for California on the 20th of next month.

The committee of ways and means are said to have discovered a leak in the outlays of the Brooklyn navy yard, and that only $20,000 will be recommended as an appropriation for this station.

Mr. Foote introduced a proposition as an amendment to Davie's Pacific R. R. Bill, in case the majority of the Select Committee shall fail. The Amendment added a clause for a Northern route.

LATER FROM EUROPE.

ARRIVAL OF THE KANGAROO.

Decline in Produce.

NEW YORK, Jan. 27.

The screw steamship Kangaroo arrived from Liverpool at 8:30 P. M.; which port she left on the 13th inst. She brings four days later news than the Europa.

GREAT BRITAIN.—The launch of the Leviathan was daily progressing, and will be completed in a few more days.

Details of the India news say that Sir Colin Campbell has evactuated Lucknow.

General Outram remains in Alumbagh with a strong division.

Gen. Wyndham, after defeating the Gwalior contingent, was taken by surprise and his camp destroyed.

The Gwalior mutineers were subsequently beaten by Sir Colin Campbell, and again by General Grant with a loss of all their guns and stores.

The Oude insurgents were pushing southward.

All was quiet at Punjab.

CHINA.—The Admiral and chief part of the British fleet had gone up the Canton River.—An attack on Canton was expected on the arrival of reinforcements. The city is reported mined.

Lord Elgin has gone to Macao.

FRANCE.—News unimportant.

SPAIN.—The Spanish Cortes had been opened. The Queen's speech alludes to the mediation of France and England in the Mexican quarrel, in what strain the dispatch says not.

TURKEY.—Ali Pasha succeeds Reschid Pasha as Grand Vizier of Turkey.

It is said that the Russians have ceased to interfere with the navigation of the Circassian coast.

LIVERPOOL, Jan. 13.—The market since the departure of the Europa has been very dull.

Flour—Neglected, although obtainable at a further reduction of 6da1s.

Wheat—Declined 2da3d.

Indian corn in limited demand and rather easier.

The quotations are:

Flour—Western Canadian, 23a24s.; Philadelphia and Baltimore 23a24s 6d.; Ohio 25s.

Wheat—Red 6sa6s 6d; for western choice samples, scarce and worth 7s 3da7s 6d in retail.—White 7s 3da 7s 9d and 8s for choice in retail.

Corn—Mixed yellow 32s 6da 32s 9d; white old 37s3a38s; new 26s.

Beef—Quiet and unchanged.

Pork—No demand.

Bacon—Rather firmer, but little doing in American.

Lard—Rather more in request, and prices unchanged.

Tallow.—Steady, but inactive.

Butcher's Association—55s asked.

LONDON MARKETS.—The market at Mark Lane on the 17th was dull.

Wheat—Rather lower.

Sugar—In active demand at very full prices.

Coffee—In good request and rather dearer.

Scotch pig iron—Sales 56s 6d.

The London Times says of Monday's market, on the 12th: American securities were steady.—N. Y. & E. and Pennsylvania Central were quoted higher, while Illinois Central was dull at 6 per cent. discount. The sales were I. C. 7's 88¾, Do. shares 94¾. N. Y. Central Sinking Fund, 85¾. Pennsylvania Central second mortgage bonds, 85.

Crawford's Statue.

RICHMOND, Jan. 27.

Crawford's Statue of Washington was unwrapped to-day, and was visited by thousands of ladies and gentlemen. It is pronounced faultless by everybody, and is in fact a glorious work of art.

MILWAUKEE:

FRIDAY MORNING, JAN'Y 29.

"Lecompton" in Congress.

Various guesses appear in the New York papers as to the probable fate of the Lecompton Swindle in Congress. It seems incredible that there should be the slightest doubt of its rejection, nor could there be, if the Administration had not taken such decided ground in its favor. Most accounts concur in representing a majority of the Senate as certain to vote for it, while the majority in the House is likely to be the other way. The correspondent of the *N. Y. Herald*, however, under date of Jan. 25th says:

The newspaper reports as to how delegations in Congress stand, especially those of New York and Pennsylvania, relative to the Lecompton constitution, is mere idle speculation and guess work. You may rely upon it that all real Simon Pure democrats in both houses will stand by the administration upon this question. Mark that.

The same paper has an editorial article on the subject, commencing thus:

THE POLITICAL TRIMMERS OF THE DAY.—We have now before the nation three great political trimmers, to-wit: Gov. Walker, of Kansas; Gov. Wise, of Virginia, and Senator Douglas, of Ill., We find them on the Kansas question trimming, dodging and turning half way between the administration and half way between the opposition.

The *Herald*, from being a bitter opponent of Mr. BUCHANAN has, with its customary consistency, become one of his most ardent champions and been received into full communion by the political priests at the Capitol and in the White House. No doubt it speaks the sentiments of the Administration in adjudicating as "*trimmers*," those Democrats who hesitate to swallow the Lecompton pill, and eulogizing, as "real Simon Pure democrats," those more compliant members who, in obedience to Presidential prescriptions, take down the dose without even a wry face.—The *Herald* may be right as to the classification of the Democrats in Congress, but among the People, especially in the north west, the "trimmers" far out number the "Simon Pures."

Military Convention.

There is to be a Military Convention at Madison, on Wednesday next, February 3d, which the Officers and Members of the several organized Volunteer Companies in the State, are invited to attend. The object is to frame and submit to the Legislature some plan for the better organization of the Militia of our State, or rather to supply the present entire lack of organization.—If there be sufficient interest taken in the subject to induce a fair attendance of Officers and Members of Military Companies from different quarters of the State, no doubt the Legislature will give respectful heed and due consideration to the requests and recommendations of the Convention.

We understand that a strong detachment of our Milwaukee Light Guard, accompanied by a full band, will visit Madison on this occasion, and that there will also be delegates in attendance from other City Companies. We hope that the Military of Racine, Kenosha, Watertown, Janesville, Cedarburg, and other towns in the State, will likewise be represented.

THINGS IN DELAVAN.—Three of our live meeting houses, says the Walworth county *Republican*, have been lighted every evening for weeks past for extra religious services. Considerable interest prevails. The Baptist Church under the resumed charge of Rev. Mr. Sheldon, whose health has improved during the past year, baptized 21 persons on last Sunday, and eleven the previous Sabbath.

In very close proximity with the above is the following: "On Friday evening last an eager crowd awaited the performance of the Amateur Dramatic Club of this place, and although the Tragedy of Othello was presented for the third time, the interest seemed unabated."

In discoursing upon business prospects the *Republican* says:

Judging by our own business, excepting receipts on subscription and a falling off on advertising, the business pulse was never more active and healthful. There has been but one assignment during the year, and that, in a case of ill selected business without adequate capital, we think must have occured with any extraordinary pecuniary pressure. All this shows the firm basis on which our commercial fabric stands, and confidently points to its future growth. Delavan will yet astonish its friends and amaze its rivals.

A MYSTERIOUS CIRCUMSTANCE.—The New Lisbon *Republican* says:

About the middle of Nov. last, a woman, judged to be about twenty or twenty-five years of age, came in the stage as far as Cowle's tavern, ten miles east of Sparta, and there took lodgings. Within a few weeks from that time she gave birth to a child. About the first of January she engaged as a servant in the family of one Roderick Kinmore, a merchant in the town of Wilton, Monroe Co., in this State.—During the night of Saturday the 9th, she was taken violently sick, and on Sabbath morning died. No physician was called in, as there was none living near. The general impression is that she died from the effects of poison, administered by herself; but this is uncertain, as there was no post mortem examination. In her trunk, which was broken open after her decease, a few dollars of money was found, and what was thought to be arsenic, inclosed in a paper envelope. She refused to give her name, or impart any information respecting her past history, or even the place from whence she came. Upon the fly leaf of a book found in her trunk, was written the name FANNY BUTAIX. With this exception, everything concerning her is wrapped up in mystery. Publishers will do well to give this an insertion in their papers.

GREAT FIRE AT DUBUQUE.—The Dubuque *Times* of the 22d, has the following account of the destructive fire at that city on the night of the 21st:

The Lawrence Block, the largest and most magnificent structure in the city, is in ruins. A fire was discovered in it last night about 11 o'clock, and the cisterns in that neighborhood being almost empty, it was impossible to extinguish it. The firemen were on the ground promptly, and nobly discharged their duty.

Something like $110,000 had been expended on it. It was insured for about $70,000. The persons occupying stores in the block had ample time to get their goods out, and we hear of no property being destroyed, save the building itself. The goods were taken out of some of the stores in the neighborhood of the block, but the fire did not spread. It is rumored that it was the work of an incendiary. The fire caught in the fourth story, which is not occupied.

BOY DROWNED.—We learn from the *Record* that a lad of six or seven years of age, a son of Dennis Horrigan, was drowned at Portage City on Monday last. He was walking across the canal on the ice and slipped into a hole and the current being rather strong he was carried underneath. He floated under the ice some distance and coming to another open place he put up his hands but before assistance could be rendered he was again carried under the ice and lost.

MORE DAMAGES AGAINST THE GREAT WESTERN RAILROAD CO.—In the assizes at Toronto on the 22d instant, a verdict for $3,000 damages was rendered against the Great Western Railroad Co. at the suit of Thos. M. Benson. The plaintiff is the son of the late Mr. T. Benson, of Port Hope, who was a passenger on the defendants' road at the time of the terrible accident on the Desjardines canal bridge, and was thereby killed. The amount of the verdict was apportioned among the Benson family as follows: To the widow Benson $2,000; to the plaintiff $400; to Richard Benson $1,200; to Miss Benson $800; to Alicia Benson $1,200; to Emma Benson $1,200 and to Frederick Benson $1,200.

FROM EUROPE.

Details of the Europa's news.

In Tuesday's paper we gave the usual telegraphic synopsis of the news brought by the *Europa*, which arrived at New York on Sunday last. From the New York papers of Monday, we condense some of the more interesting details. The latest intelligence from India is unfavorable. The British troops under Gen. WINDHAM, had been defeated, with heavy loss, by the Sepoys; and though the victors were subsequently overtaken and dispersed by the forces under Sir COLIN CAMPBELL, the British had been forced to evacuate Oude.

All the women, children, sick, &c., from Lucknow, had arrived in safety at Allahabad.

The official report of the defence of Lucknow, is published, and shows that the privations endured by the heroic garrison, and particularly the ladies, had been fearful.

Troop ships continued to arrive rapidly at Calcutta, and among others the celebrated American built clipper *Lightning*, had arrive out in a passage of 87 days from the Downs.

Operations were resumed upon the *Leviathan*, on the 5th inst with success, the vessel being moved several feet. The proceedings were continued daily up to the departure of the *Europa*, the progress each day amounting to eight or ten feet. The evening before the *Europa* sailed, the ship had only sixty-four more feet to be moved.

We give elsewhere some details of the launching process.

A great increase of confidence in commercial circles in Paris is reported. Among the measures of relief a negotiation is spoken of as going on between the Bank of France and the National Discount Office, for the advance of 80,000,000 francs to the Paris merchants, on the security of goods in store.

Very little business was doing in brandies, and prices generally had a downward tendency.

Trade at Lyons had begun to revive, and a better demand had sprung up in silk markets of the south.

The Empress *Eugenie* was indisposed.

The financial news is important. The Bank of England, Prussia and Belgium have lowered their rates of discount, and there is generally a marked improvement in money affairs. Consols closed on the 9th inst. at 95¾.

Shocks of earthquake continue to be experienced almost daily at Naples, but without any serious results.

Lisbon has been at length declared free from yellow fever. The official report of the ravages of the disease shows that between the 9th of September and the 24th of December there were 13,432 cases of fever, and 4,759 deaths.

The *Espana*, of Madrid, in the course of a long article on President Buchanan's Message expresses the opinion that the Spanish Government will "continue firm in its refusal to give satisfaction to the United States in the affair of the *Eldorado*, since no insult had been committed, and that it will energetically reject the insulting proposition relative to Cuba."

As already stated, the *Europa* brings the announcement of the deaths of four prominent characters on the World's Stage, the gallant Sir Henry HAVELOCK, at Lucknow, India; Mademoiselle RACHEL, at Cannes; Marshal RADETZKY, in Vienna, and RESCHID PASHA at Constantinople.

Sir HENRY HAVELOCK was born in 1795 and entered the British Army one month after the battle of Waterloo. After eight years home service he embarked for India in 1823, and there continued, engaged in active duty, up to the time of his lamented death. It was his prompt, daring and determined conduct, at the most critical period of the Sepoy revolt, that checked the spread of the mutiny and saved India. For this distinguished service, the British Government had already given him a Barronetcy, an annual pension of $6,000, and the riband of the Bath; and was about to confer other rewards.—He died of dysentery, brought on by anxiety and exposure, on the 25th of November; just seven days after the relief of Lucknow, and one day before he was created a Baronet by the Queen:

The London *Times* says:

Sir Henry Havelock married in 1827 the youngest daughter of the eminent biblical scholar, Rev. Dr. Marshman, Hannah Shepherd. He leaves a family of three daughters and three sons. The oldest son, now Sir Henry Marshman Havelock, and if the title of Baronetcy is conferred to his father, second baronet, was born in 1830.—He holds at present a captain's commission in the 18th Royal Irish, and has been serving in India lately as Deputy Assistant Adjutant General under his honored father. Lady Havelock, but but a fortnight before the reception of the news of her husband's death, after a short stay at Bath, left England for Germany, amid the congratulations of her friends. While in her sorrow, she will not want the sympathy of the British public—she will realize that her beloved husband has sacrificed his life in his country's service, and that her bereavement is a nation's loss.

It will be interesting to the public to know, says the London *Chronicle* of Jan. 9, that Lady Havelock and her daughters—in whose sad and sore bereavement there is such profound and universal sympathy—are now residing at Bonn, on the Rhine. They repaired thither some weeks ago, and meant to remain for some time in Germany. It is a curious circumstance that about six or seven weeks ago, Lady Havelock, who, up to that time cherished the firm conviction that her husband would not only come triumphantly through the campaign, but that she and her daughters should soon meet him in England—then became the victim of a powerful presentiment—of which she was unable to rid herself—that she should hear of his death before many weeks had elapsed.

Marshal RADETZKY died on the 5th of January of paralysis of the lungs, after a week's illness, having reached his ninety-second year. He was a veteran and distinguished soldier, having taken part in the great battles of Marengo, Austerlitz, Aspern, Wagram, and Leipsic against Napoleon; and, later in life, having defeated the Piedmontese at Novara, and repressed with an iron hand, the Patriot risings in Italy.

In stature Radetzky was below the middle height, with broad shoulders and a clear piercing eye; he possessed that peculiar attraction attributed to Frederick the Great, and to Napoleon. Among a hundred officers, though simply dressed in a grey surtout, Radetzky would command the attention of all. The statue in bronze at the Great Exhibition of 1851 is an excellent likeness of him in his 86th year.

Radetzky was married in 1797 to the Countess Fanno Strassoldo, by whom he had five sons and three daughters. Of these, only one son and one daughter survive him. His son is a staff officer in the Austrian service; his daughter is married to Count Wenkheim.

RACHEL, the celebrated actress, who had been an invalid for two years past, died on the 3rd of January, at her Chateau in Normandy. She was born in 1820, at a poor inn, in Switzerland, and was the daughter of a Jew pedlar. Commencing life at almost the lowest round of the ladder, RACHAL first appeared in public as a lit the girl, 10 years old singing and reciting in the Paris *Cafas*, for the amusement of the guests, and the daily profit of a few *sous*. Her talent for declamation attracted the notice of a Clerk in one of the Public Offices, who had her sent to school, and afterwards procured her an engagement in one of the public theatres. Thenceforward she carved out her own path to fame and fortune, attaining the topmost rank in her vocation, and accumulating a fortune of half a million of dollars.

The fatal malady of which she died was contracted in this country, during her visit to Boston in the Autumn of 1855. It was greatly aggravated at Philadelphia, where she played a single night in a cold theatre, the performance being followed by a violent pneumonic attack. Her last appearance on the stage was at Charlestown, S. C., where she played *Adrienne Lecouvreur*. A lady in the audience, on that occasion, wrote the next day to a friend in New York, that Rachel would never act again, a prophecy but too exactly fulfilled.

She died a tenacious adherent to the Jewish religion, though it has often been reported that she had been baptised in the Roman Catholic Church. A rabbi from Toulon attended her death bed; and she was to be buried in the Hebrew Cemetery at Paris.

RESCHID PASHA, the well-known Turkish Vizier, and probably the most eminent Turkish Statesman of the day, died at Constantinople on the 2d of January, after a violent attack of apoplexy. He had not quite reached his fiftieth year; and had passed the greater part of his life in the public service.

(From the London Times, Jan. 7.)

The Launch of the Leviathan.

Yesterday morning the slow-pushing efforts which constitute the process of launching this vessel, were recommenced for the sixth time, with the same sanguine hopes and confident assertions which have distinguished all other attempts during the last two months. It was intended to have gone to work soon after daybreak, but the severe frost of the previous night had frozen all the water in the ram pumps and feed pipes, and even the pistons into the cylinders of the rams themselves. This of course occasioned a delay, since fires had to be lighted, and the pipes and pumps thawed before anything could be done, so that it was near 11 o'clock before all was in readiness for another start.—The fires which were lit had to be kept up throughout the day, and some 25 or 30 were burning in the fore and aft cradles in huge iron brazers, when they were used in heating the water before it was pumped into the rams.—Great care had to be taken that this was properly done, for the strongest hydraulic machines in world would be burst instantly if the water commenced freezing in the cylinders. By the new arrangement, by which all the hydraulic machines are joined with supply pipes in groups of three, the pressure was got upon the cradles so easily that the Leviathan, after a rest of nearly three weeks, slipped at once for two or three inches, and in short slips of the same kind she continued to progress throughout the day. At 6 o'clock, when work was discontinued, she had made twenty-six slips in all, in length varying from two to five inches each; according as the pressure was great and the elasticity of the timber threw her off with more or less force. Her whole progress was eight feet three and a half inches aft, and three feet one inch forward.—The reason of this great difference between the progress of the stem and stern is, because the fore part of the vessel is already so much in advance as to have twisted the cradles on the ways. Yesterday, therefore, almost the whole of the pressure was applied on the aft cradle, and the difference of position between that and the forward one in a great measure removed.

There is no reason to doubt that if the tackle which hauls her towards the Thames could have been used, the result of yesterday's work would have been some thirty or forty feet, as it is the strain applied upon the immense chains across the river which keeps her in motion for three or four feet when once the rams have started her.—As it was, however, in consequence of the accident which happened the day before, when the steam barge, with all the gear for hauling in the chains was sunk by a bark, nothing could be done with the river tackle. This portion of the launching apparatus is under the charge of Capt. Harrison, who has exerted himself so indefatigably since the accident happened that the damage will be almost entirely repaired by to-day, when 80 tons strain will be ready at the stern, and 120 at the bows. In addition to the admirable arrangement of joining the rams in threes, each machine is now fitted with a pressure guage, which records the exact weight per circular inch on each ram. Each ram also—though nearly all are capable of bearing a pressure of four or five tons to the inch—has been gauged, and the escape valve so weighed as to let out the water at a pressure of 30 cwt. to the inch. With these precautions it is next to impossible that they can now burst. The united pressure of all the twenty-one rams now fixed, and working at 30 cwt. the circular inch, would amount to no less than 4,000 tons, which as the resistance of the Leviathan has never yet been known to exceed 1,900 tons, is, of course, more than double the force they are likely ever to be wanted to exert. From a record kept yesterday, of the pressure upon the rams when each slip was made it seems that the average strain required to move her was 1,300 tons. The variations above and below this standard, however, were constant, and occurred in a most unaccountable manner. Sometimes she slipped when the register barely showed 1,000 tons pressure, and then, probably, at the next movement, a force of 1,700 tons was exerted before they could get her to move an inch. The fires in the braziers in the cradles were to be kept up during last night, as it is with good reason apprehended that the packings of the rams may freeze, which would of course, occasion much delay before the work to-day could be resumed.

ASSAULTING AN EDITOR.—Mr. R. Ridgway, one of the editors of the Richmond Va. *Whig*, was assaulted in his office on Friday last, by Mr. O. J. Wise, a son of Gov. Wise, and a struggle ensued, but neither appears to have been much hurt. Mr. Wise was provoked by what he considered the Whig's aspersion of his father. Mr. Ridgway publishes a card, in which he expresses his willingness to fight a duel, if Mr. Wise choses to challenge him.

Both parties have been put under $3,000 bonds to keep the peace. If Gov. Wise will keep writing political letters and making political speeches every few days, it is not in newspaper nature to refrain from comments.

FRENCH SPOLIATIONS.—The special committee of the U. S. Senate on the French Spoliation claims, decided at their last meeting in favor of reporting a bill, which Mr. Crittenden is preparing. It will include all the reports heretofore made, together with the vetoes, &c. The mode by which the committee propose to pay said claims is to issue United States five per cent. stock. They limit the amount to five millions, to be paid *pro rata*, provided they exceed five million dollars.

A GOOD ACT.—A laborer had his leg broken at Portage City, a few days since, by being precipitated from a scaffold upon which he was working, and as he was a poor man the citizens of that place subscribed between sixty and seventy dollars for his relief.

PREPARING FOR THE STRUGGLE.—The Republican members of the House of Representatives held a caucus last Friday evening, to make preparations for the struggle which will shortly ensue upon the question of the admission of Kansas into the Union under the Lecompton Constitution. They expect to defeat the measure. Mr. Blair, of Missouri, is to lead the opposition in this important parliamentary pitched battle. The Republicans oppose an unbroken front to the Lecompton Swindle.

POST OFFICE BUILDINGS IN STATE CAPITALS.—Mr. WALTON, a Republican Member of Congress from Vermont, residing at Montpelier, has offered the following resolution in the House. It is one which, if passed, will benefit Madison as well as Montpelier:—

Resolved, That the Committee on the Post Office and Post Roads be instructed to inquire into the expediency of erecting a post Office at each of the Capitals of the several States in the Union, where a Post Office has not already been erected or provided for in connection with United States Court or Custom-Houses.

VIOLETS IN WINTER.—The editor of the Waukesha *Republican* says:

We have on our table, a bunch of violets plucked to-day, Jan. 25, in the garden of Mr. A. W. Hatch.

This Winter is, truly, "ruler of the inverted year." The first, fragile flowers have mistaken his lenient reign for the sovereignty of a milder monarch, and, with simple faith in the seasons, have awaked from their chilly sleep to drink in the balmy air and bask in the warm sunshine of glorious Spring. What care they for the Almanac makers? Their chronology is measured by Nature, with the sun as an index and the face of the earth as a dial, and though mid-winter by the calendar, it is in the succession of seed time and harvest, resurrection morn to leaflet and sprig.

☞ On Tuesday afternoon, a young lady in Brooklyn determined that she would no longer remain "in maiden meditation fancy free," and without the fear of parental authority, and without saying "by your leave, sir," put on her bridal habiliments and walked into the P——s H——e, and said to her lover, "we must be married this afternoon." He, not to be outdone by his lady-love in the ardor of passion, accepted at once the proposal, and, crossing over to this city, found a clergyman 'made them one' in the 'eye of the law.' They returned to the P——s H——e, when the bride of an hour sent a note to her 'dear papa,' saying in the politest possible manner:—

"Dear Papa: I am no longer Miss——, but Mrs.——."

"This last marriage in haste will be a subject of conversation on the 'Heights' until the next one comes off.—*N. Y. paper.*

REDUCTION IN THE PRICE OF THE
BADGER STATE SAFES!
NOT TO BE SURPASSED in any respect by any safe manufactory in the whole country, we have just completed our arrangements for manufacturing the

BADGER STATE SAFES,

Upon a larger scale than we have ever done heretofore by the introduction of new machinery, and by increasing our manufacturing facilities.

FIRE & BURGLAR PROOF!

Our SAFES, as is well known, are more substantially constructed, and more handsomely finished than any other safe manufactured in America, and consequently it has cost us more in getting up our safes than any other manufacturing establishment in the country. But, notwithstanding this, we are now enabled to offer our safes to the public at

AS LOW PRICES!

As any other safes manufactured. The following are the former and present prices of some of our safes:—

No. 1 Badger Safe, present price,	$135,	former,	$150.
" 2 " " "	160,	"	185
" 3 " " "	200,	"	225
" 8 " " "	275,	"	300

and so on.

The severe tests which the Badger State Safe has stood, both in this city and elsewhere, establishes its proof against fire and water for the protection of valuables.

CONSUMPTION
—AND—
DISEASES OF THE THROAT AND LUNGS

DR. W. HUNTER, late of St. Louis, has permanently located in this city for the special treatment of all diseases appertaining to the Lungs and air passages, Sore Throat, Chronic Enlargement of the Tonsils, Elongation and Enlargement of the Uvula, Acute and Chronic Laryngitis, Acute and Chronic Bronchitis, Catarrh of the Head, Clergyman's Sore Throat, and Consumption.—MEDICIATED INHALATION, whereby the remedy is brought in direct contact with the diseased parts, besides all remedies known to the medical profession, will be used as symptoms require.

From the long experience he has had in auscultation and percussion, combined with success in treatment, he deems himself warranted in assuring the public of his professional skill in the treatment of these diseases.

Persons at a distance, sending a full description of their case, will receive treatment according to their symptoms.

CITY LOTS. LOTS. LOTS. LOTS. FARMS & GO'S addition. No. 2d. One mile and a half from the Spring Street Bridge.

We have laid off the balance of our original purchase on Spring Street in 10's, and now offer them on the same terms as heretofore, viz: *On each hundred dollars of purchase money the down payment, and one dollar per month thereafter, without paid WITHOUT INTEREST.* The lots are beautifully situated on high ground in a healthful locality, and command some of the finest views about the city. They will bear examination.

The very low price at which they will be sold, together with the terms, commend them to the attention of all classes who desire a home and exemption from rents.—Young men, mechanics and laboring men, and tradesmen of small means have an opportunity to invest that is within their reach. We have an agent on the property every day, at 2 P. M., to show the lots.

My Flora.

From Punch.

A FASHIONABLE PASTORAL.

Tell me, Gamlet, have you seen
My Flora pass this way?
That you may know the Miss I mean,
Her briefly I'll portray.

No bonnet on her head,
But on her neck she wears,
As yesterday, a shawl
In size with it compares.

Its shape no eye can brook,
Its use is doubtful too;
But it boasts a hundred look,
And brings each cheek to view.

Her dress may please the Swell
For its youthful exuberance;
She looks a monster belle
In each lily Bun expanse.

Those air tubes filled with gas
Would fit her to the moon;
The mail boys mark it as they past,
And scream out "Ah Bal-loon!"

A parasol she bears
For ornament, not use;
For comfort gloves she wears
Too tight, and sleeves too loose.

Behind her hangs a hood
Just level with the chin,
An Indian Squaw might find it good
To put a baby in.

Of her hair she shows the roots,
Sham flowers the rest conceal;
And she's crippled by her boots
With the military heel.

Streets of you hear them stalk
Where'er she ventures out;
And she seems to waddle more than walk,
Her hoops so sway about.

Her figure may be good,
But that no eye can tell;
A mere lay-figure would
Show off her dress as well.

She may have ankles bent,
But they're concealed by skirt,
Which chiefly so yes to hide her feet,
And gather up the dirt.

Then, gentles, have you seen
My Flora this way come?
She cannot have unnoticed been,
She takes up so much room!

Matrimonial.

An angel always dwells beneath the roof
Where, in her virtue, a sweet wife fulfills
Her gentle duties; and unmurmured life
From that love-guarded precinct keep aloof.
"The man who finds a wife," 'twas said of old,
"finds something good," and so I always hold.
The bachelor is a nondescript—(I beg
His pardon, and it's true)—quite out of place,
He seems to me, among our loving race;
Unfinished, like a chair that lacks a leg.—
A knife without a fork,—a lock unbound,—
A lonely traveler on a lonesome way,
Who faint and sad, looks wistfully around,
But from the sun of love receives no cheering ray.

A FIENDISH OUTRAGE.—We learn that an outrage of a most fiendish character, almost too horrible and revolting to be chronicled, took place in Florence, Kentucky, about twenty miles from Covington, on Thursday last. In the afternoon of that day, a little girl about six years of age, the daughter of Joseph Bryant, Esq., of Florence, was missing from the house, and notwithstanding diligent search being made, could nowhere be found. The neighborhood was aroused, and the wells and streams were examined, but the search was fruitless, until a negro boy, the property of Miles Marcus, Esq., suggested that she might have fallen into a well that was not used, at some distance from the house. Thither the party proceeded, and were horrified to find the brains and blood of the little girl scattered about the top of the well.
Search was immediately made in the water, when the body was brought to the surface, and a most painful spectacle presented. The child had been violated, her head crushed in a most inhuman manner, and the skull nearly emptied of the brains, which were found scattered about the well. Those that were there say that the sight was of the most horrible description.
From circumstances which transpired during the search, suspicion fastened upon the negro boy, who suggested making an examination of the well where the body was found, and on accusing him of the crime, he reluctantly confessed that he had first violated her, beat her brains out and then thrown the body into the well to cover up the crime. When the fact became known in the neighborhood, the people assembled in large numbers, and proposed to hang the negro on the spot, and the excitement was so great that it was with difficulty he could be kept out of the hands of the infuriated crowd, who were determined to wreak summary vengeance upon the murderer. Cooler counsels prevailed, however, and the more moderate of the populace finally succeeded in getting possession of the negro, and handing him over to the civil authorities. He was then conveyed to the jail by a strong guard and securely confined and ironed.

THE CITY OF JEDDO THE CAPITAL OF JAPAN.—The City of Jeddo is said to be, without exception, the largest city in the world. It contains 1,500,000 dwellings, and the unparalleled number of 5,000,0000 of people. Some of its streets are sixteen Japanese rix in length, which is equal to thirty-two English miles. The commerce of Japan is immense, and the sea all along their coast is covered with their ships. Their vessels are laden in the southern portion of the empire with rice, tea, sea-coal, tobacco, silk, cotton, and tropical fruits, all of which find a market in the north, and then return freighted with corn, salt, oil, isinglass, and other productions of the north, which find a market in the south.

Col. Forney as a Lecturer.

HARRISBURG, Jan. 21, 1858.

A feat was performed here last evening that rivals some of the famed horsemanship of Col. Fremont and his California mustangs. Col. Forney, editor of the Press, was advertised to deliver a lecture in Lancaster, on Wednesday evening, and for that purpose left here at 12 o'clock noon, but upon arriving at his destination found he had left his manuscript of the discourse in his room, at the Jones House.
He immediately telegraphed that, if possible, it should be sent him either by chartering a Locomotive or by a horse express. To get the locomotive it was found impossible, when his friend Bartram A. Schaffer, Senator from Lancaster, started in a buggy at precisely 4 P. M. At 10 minutes of seven o'clock they telegraphed back his arrival at Lancaster, having made the distance of 37 miles in 2 hours and 50 minutes!—This, I think cannot be beaten, when it is considered that the roads are now in a bad condition, and most of the distance was made after nightfall. Col. Forney [delivered his lecture on, at overflowing house.—*Harrisburg Cor. of the Press.*

CALEB WALL'S ADV'TS

CITY AUCTION ROOM.

City Auction Room.

I WANT to purchase twenty thousand to thirty thousand dollars worth of Dry Goods in the following way: One quarter cash, balance in good city property or I will pay all cash if I can agree on prices; or I will exchange good Bonds and Mortgages on Railroad Stocks or School Lands. Any one who is tired of trade, and wishes to give up and retire to private life, call on me and I will buy you out. My object is to do good to all, and keep myself at the same time. Or, if any one wants to sell his stock of Goods at auction, I will advance him from one-fourth to one-third it is worth on said Goods. I will advance on all kinds of Goods, Furniture, &c., &c., but said Goods will be sold in ten days after the advance, or the parties can, if they wish, redeem by paying the Commission. All I want is to make money out of money, and keep the balance a rolling. I also want it understood that I am ready to do all auction business entrusted to my care. Oh, I would also say that the great stock of Goods which has been selling on the west side of the river, at half price, that I have concluded to keep the store open for three days longer. The crowd is so great and Goods so cheap that I think it my duty to give all a chance to get great bargains. Recollect it is in the store room formerly occupied by J. L. Pierce, on the east side of the river.

Two or three bottles will clear the system of biles.
Two bottles are warranted to cure the worst canker in the mouth or stomach.
Three to five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of ring-worm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three to four bottles are warranted to cure salt-rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.
ROXBURY, Mass.
DEAR MADAM:—The reputation of the Medical Discovery, in curing all kind of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skilful physicians and the most careful Druggists in the country are unanimous in its praise.
In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of those diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother
NURSING SORE MOUTH,
is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers; and the Medical Discovery becomes a fountain for blessings to your husband and household.
In the more advanced stages of
CANKER
it extends to the stomach, ensuing
DYSPEPSIA,
which is nothing but canker on the stomach; then to the intestines and
KIDNEYS,
creating a sinking, gone feeling, and an indifference even to the cares of your family.
Your mother is
RAW AND INFLAMED,
your food distresses you, and you can only take certain kinds, and even of that your system does not get half the nourishment it contains, as the excruciating fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the thread of life is fast being relaxed. Then follow a train of diseases which the Medical Discovery is peculiarly adapted to
CURE:
Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joint when you retire, irregularity of the bowels, and also, that most excruciating of diseases the
PILES.
How many thousands or poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. Let me impress on your mind that good old proverb, "An ounce of prevention is better than a pound of cure." In the
MEDICAL DISCOVERY
you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

LESSONS IN
Foreign Languages.
MR. AND MRS. L. S. E. DE CRETY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will open a class in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their hours being arranged with that view.
Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Crety furnishing books of the best French authors. Those too wishing to learn vocal music in either of those languages, will find a competent music teacher in the establishment.
The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M.. And in the evening from half past 6 to 9, for conversation.
Mr. DE CRETY will also give lessons in French, Spanish and Italian, at his office, to gentlemen only, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.
Mr. De Crety will also form similar classes for children, from 10 to 15 years old, at his house, or other, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves after a few weeks trial, as to the effect of these different exercises upon their health.
The continued patronage of the public is respectfully solicited.

To MERCHANTS.—Mr. DE CRETY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.

141.] SHERIFF'S SALE. [Sentinel.
STATE OF WISCONSIN, CIRCUIT COURT, MILWAUKEE COUNTY.
Hiram A. Tucker, Walter S. Gurnee, Hamilton B. Dox and William Norton, against Hiram Niles and Henry R. Kinne.
EXECUTION.
BY VIRTUE of an execution issued in the above entitled action, to me directed and delivered, against the goods, chattels and real estate of Hiram Niles and Henry R. Kinne, I shall expose for sale and at Public Auction, at the Court House in the city of Milwaukee, on Saturday, the 27th day of February, 1858, at the hour of 2 P. M. of that day, the following described premises, and all the right, title and interest which the said defendants, or either of them, had in and to said land on the 9th day of September, 1857, at 7,20 o'clock P. M., to-wit: at the date of seizure of said land, by virtue of a certain writ of attachment hereto fore issued in this action,
